

About Reimer International

For the past 40 years, **Reimer International** has been on the cutting edge of mobile concrete mixing technology. Importing the first two mobile mixers into Canada in 1965, **Gordon Reimer** decided to make a good idea even better. Using superior materials and unique components, the Reimer Mobile Volumetric Concrete Mixer has evolved into the highest quality mobile volumetric mixer on the market.

Hundreds of owners and operators in 24 countries around the world have benefited from the precise engineering and thoughtful design of Reimer model mixers.

Gordon Reimer continues to be involved with his customers all over the world. He loves to travel and makes face-to-face service a priority with his customers.
