

Features of the Reimer Mobile Concrete Mixer

⚡ Efficient, load sensing hydraulic system

- simple design and constant flows ensure a consistent mix

⚡ Full function wireless remote

- gives the operator freedom to stand in a convenient position or to operate it from the cab

⚡ Volumetric measurement of materials

- a proven batching method

⚡ Will meet the requirements of any mix design

⚡ Adjustable discharge rate

⚡ Power swing and chute tilt

⚡ High & low flow admixture systems
